Hello everyone,

First and foremost, we hope your families are in good health. We would like to thank you for your patience during this difficult time. Collectively we are living through unprecedented times in which our sense of normalcy has been uprooted. This has left us all wondering what is next and how will we navigate through. We will need to approach this together.

We will continue to provide an education for your child albeit in a different form. Teachers will be connecting with their homeroom class this week as a check in to see how everyone is doing. Homeroom class is Day 1, Period 1.

If you have not heard from your child's homeroom teacher by the end of the day Wednesday, April 8th, please contact the school as we might not have your correct contact information.

During the following couple of weeks, your child's other subject teachers will be in contact to begin discussing course related information. Please be patient during this time as teachers are gathering essential materials from school this week and will need time to prepare.

Please know that we have been working diligently to create a plan that will work for our students to receive their education. We will no doubt be making adaptations along the way as we are working through something we have never experienced before.

We greatly appreciate your patience and support throughout this process. The next few months will require some creativity and flexibility from all of us. Most importantly, we will all need to come together and support each other during this complex time.

Please contact us should you have any concerns.

We wish you all the best.

M. Gabriele
